ABOUT THE WAR

German troops marching on Grodno have reached the outer line of the defenses of the fortress, Berlin reports. The total number of Prussian losses published up to Aug. 24 amounts to 1,740,836 killed, wounded and missing. Two Mexican bandits were shot to death near Kathryn, Tex. They had been arrested by a posse and were trying to escape. The Russian fortress of Lutsch has been captured by Teutonic forces, it was officially announced by the Austrian war office. The British steamer Sir William Stephenson of 1,540 tons, has been sunk by a German submarine, according to London reports. A telegram from Maasbode says allied aviators destroyed a large building at Ghent, Belgium, used by the Germans for housing air craft. A report was given out by the Overseas News agency at Berlin that a cruiser of the allies had met with disaster off the coast of Asia Minor. The British employed 12,000 men in their attacks on Turkish positions on Gallipoli peninsula, according to a dispatch from Constantinople to the Berlin Frankfurter Zeitung, and their losses were extremely heavy. The correspondent estimates that since Aug. 6 the British losses have been in excess of 50,000. More than 1,000,000 Russians have been taken prisoners by the Germans since the campaign in Galicia began on May 2. German army headquarters announced. Captures of Russians during the month of August totaled 2,000 officers and 269,839 men, while 2,300 cannon and 560 machine guns were taken. The Russian armies along the line of the upper Bug and the Zlota Lipa are being withdrawn rapidly and apparently without great loss, as neither Vienna nor Berlin claims any extensive captures of prisoners or booty in this region. In the center of the line, due east of Warsaw, the invaders continue to make steady progress, while further north they are advancing more slowly. The fall of Lipk brings the attacking forces nearer Grodno, the last big fortress on the front to be retained by the Russians.

At Marietta, Ga., the Cobb county grand jury assembled to investigate the lynching of Leo M. Frank and take up its regular work. H., indicated that there was scant hope of establishing the identities of the twenty-one remaining bodies still in the after compartment of the vessel. The remains, of which little is left except bare skeletons, were located mixed with the debris of the sea. A number of bodies of the twenty-two men who went down in the submarine F-4 March 25, were found entangled in the wreckage of the interior. One body was removed. Two others were in such a poor state of preservation that the work of uncovering them is being done slowly. The finding of the bodies was announced officially by Rear Admiral C. J. Boush.

HIGHER EXPRESS RATES

FIVE CENTS ADDITIONAL ON SMALL PACKAGES.

Increase Allowed for Carrying All Packages Weighing Less Than One Hundred Pounds.

Western Newspaper Union News Service. Santa Fe.—Since Sept. 1 the express rates in New Mexico have been raised 5 cents on every package weighing 1 to 5 pounds.

The increase on larger packages will be as follows: 6 to 25 pounds, 4 cents; 30 to 49 pounds, 3 cents; 50 to 70 pounds, 2 cents; 71 to 99 pounds, 1 cent. On 100 pounds or more there will be no change.

These increases were allowed recently by the Interstate Commerce Commission and the State Corporation Commission of New Mexico has decided to allow them on interstate shipments. The states of Montana, Idaho, Nevada and Arizona declined to allow these rates within their boundaries, and the matter will be probably referred back to the Interstate Commerce Commission.

The argument of the express companies appears to be that good things travel in small packages and as some of the most valuable articles shipped by express are diamonds and other precious stones, gold and silver trinkets, etc., the public can well afford to pay a higher rate.
